

HSM ProfiPack P425 Packaging machine

From waste to packaging material

Used cardboard is made into high-quality packaging material.

Specially hardened solid steel cutting rollers

Specially hardened HSM cutting rollers ensure absolutely precise cutting.

This high-performance packaging machine is used to process a number of layers of cardboard into a padding mat or padded filling material. The professional device is mobile on steering rollers and can be used with total flexibility.

- High quality materials and “Made in Germany” quality for safety and durability.
- Cutting rollers made of hardened solid steel.
- Powerful, efficient drive concept allows continuous operation.
- Particularly sustainable operation due to the high efficiency.
- Fully flexible feed speed adjustment.
- Adjustable cushioning volume of the packaging material.
- Infinitely adjustable working width with scale for cushioning material made to measure.
- Intuitive operation with LED indicators on robust keypad.
- The integrated turbo-function resolves blockages.
- User safety through emergency off switch.
- Mobile on castors, with parking brake.

Article number	1531154	Throughput capacity	up to 80 kg/h
EAN	4026631062596	Noise level (idle operation)	59 dB(A)
Scope of application	Stand-alone device	Driving power	2.0 kW
Intake width	425 mm	Voltage	230 V
Infeed/Loading height	20 mm	Frequency	50 Hz
Cutting capacity	up to 3 layers	Width x Depth x Height	770 x 570 x 1040 mm
Cutting speed	up to 170 mm/s	Weight	160 kg
		Colour	light grey/iron grey
